Les Cols

A photograph of the Château Peralada at dusk. The castle's stone walls and two prominent towers with crenellated tops are illuminated from below, casting a warm glow. The lower sections of the walls are covered in dense green ivy. In the foreground, a calm pond reflects the lights and the sky. A stone balustrade runs along the edge of the pond. The sky is filled with soft, colorful clouds. The overall atmosphere is serene and majestic.

Help small land stewardship producers

EMYS FOUNDATION

3 hours | Spring (April-May) and Autumn (October-November) | 1st - 2nd Nov 20 | Starting from €100 euros

The Emys Foundation has signed a dozen land stewardship agreements with local organic crop and livestock farmers. Our goal is to work with them to implement ecological farming and livestock practices with high environmental standards and capable of sustaining high levels of biodiversity, which is their job, compensation. The organization has been working for many years with a programme to foster land stewardship. However, many small farmers who want to apply ecological and MSW practices have very few resources available to make the necessary investments and changes on their properties. We aim to support the Emys Foundation's land stewardship producers to that they can adopt their practices and carry out possible actions to promote ecological farming in their community.

Sand traps: Restoring the dune system in the bay of L'Estartit-Pals

RECREATIVE EXPERIENCES

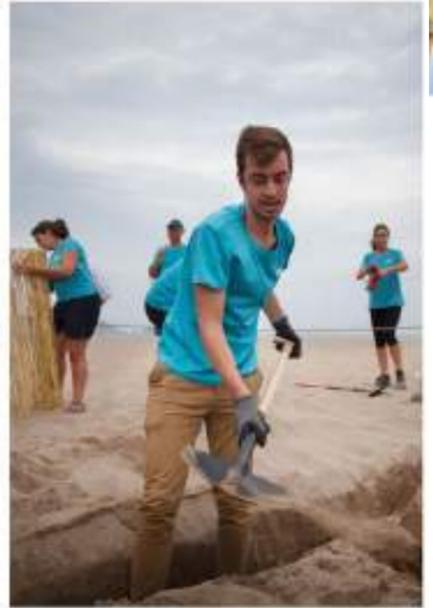

3.5 hours | November | 1st - 2nd Nov 20 | Starting from €10 euros

Project to restore the dune ridge in the bay of L'Estartit-Pals to recover a protected natural area in favor of endemic species. The aim is to restore the ecosystem functionality following the loss of sand outside the beach in the summer wind. As doing so, protect the natural beaches as a fundamental asset of the bay for - Mares del Mar.
