Costa Brava

The Costa Brava is an ideal setting for organising conferences, conventions and incentive activities. Or, put another way, it is the sum of many different settings that make up a unique land where work and leisure go hand in hand.

We have the Mediterranean, with beaches, small coves, sheer cliffs and charming fishing towns, such as Cadaqués or Calella de Palafrugell.

We have natural areas of great biological and scenic interest, such as the natural parks of Cap de Creus and Aiguamolls de l'Empordà, the Medes Islands or the Montgrí Massif. And unique beauty spots such as Roses Bay, Banyoles Lake or the botanical gardens of Santa Clotilde, Pinya de Rosa, Marimurtra and Cap Roig.

The Costa Brava is the sum of many different settings that make up a unique land where work and leisure go hand in hand.

Then there is the rich historical and cultural heritage of a land that invites you to follow in the footsteps of Salvador Dalí, to discover its Jewish legacy in Girona's *Call* (Jewish quarter), and to travel back to the time of the Iberians, Greeks and Romans.

And we cannot fail to mention the wonderful flavour of these counties, both their traditional cuisine and today's highly creative and innovative gastronomy, internationally renowned.

Girona Pyrenees

A very short distance from the Costa Brava, the Girona Pyrenees come into view and the terrain soon climbs steeply to an altitude of almost 3,000 metres. A world of possibilities opens up for organising small-scale incentive trips and meetings.

Nature offers landscapes of great beauty such as the Natural Park of the Volcanic Zone of Garrotxa, magical beauty spots such as Vall de Núria, immense forests such as those surrounding the picturesque villages of Oix and Beget, or wide and bright valleys such as Cerdanya. And, in the middle of it all, we find cultural gems such as the mediaeval town of Besalú.

The hinterland offers an extensive variety of farmhouses, castles, monasteries and other outstanding venues that provide added value when it comes to organising an event, product presentation, training day, etc.

What is more, added to the natural charm of the landscape, an array of outdoor activities are available, such as hiking, mountain biking, skiing, horse riding and several other mountain and adventure sports, ideal for fostering team spirit.

A very short distance from the Costa Brava, Pirineu de Girona come into view and the terrain soon climbs steeply to an altitude of almost 3,000 metres.

Hotel Villa Paulita **** sup.

A family, a hotel, an experience. The story of Hotel Villa Paulita begins at the start of the 20th century, when the success of a businessman from Barcelona allowed him to make his dream of buying this magnificent mansion beside the beautiful Puigcerdà Lake in the Pyrenees come true. The next four generations of the family spent their summers at the Villa, enjoying cycling, hiking in the mountains and playing golf. Christmas time would take them off skiing to one of the fifteen ski resorts nearby. After being converted into a four-star hotel this former family home opened its doors in July 2007 and has become a benchmark in Puigcerdà. We encourage you to get to know Villa Paulita and the beauty of the surrounding La Cerdanya valley.

Culture

Enriching cultural experiences await you on the Costa Brava and in the Girona Pyrenees. You can trace the history of the territory as you travel through it, following in the footsteps of different civilisations.

You can start by travelling back to the 7th century BC, visiting Iberian settlements such as Ullastret, followed by the ruins of Empúries, a magnificent monumental complex with remains from the Greek and Roman occupation.

The mediaeval period deserves a chapter to itself, thanks to a whole series of exceptional historical sites: the majestic monastery of Sant Pere de Rodes, which seems to dominate the Mediterranean, or the monastery of Santa Maria de Ripoll, considered the cradle of Catalonia; the Jewish legacy of Girona Jewish quarter; the ancient towns of Besalú, Tossa de Mar, Pals or Peratallada, authentic outdoor museums; and Romanesque art, scattered throughout the area, a treasure shared and carefully preserved by many towns.

The cultural offering of these counties also includes the landscape paintings of Joaquim Vayreda, one of the leading painters of the Olot school, or the paintings of Marc Chagall, who found refuge in Tossa de Mar, his "blue paradise".

The most internationally renowned local artist is Salvador Dalí. His name will be forever associated with that of the Costa Brava, thanks to three sites where visitors can immerse themselves in the life and work of the genius from Empordà: the Dalí Theatre-Museum in Figueres, the Salvador Dalí House-Museum in Portlligat (Cadaqués) and the Gala Dalí Castle House-Museum in Púbol, in the municipal district of La Pera.

Salvador Dalí is a name that will be forever associated with the Costa Brava, with three sites where visitors can immerse themselves in the life and work of the Empordà genius.

Gastronomy

The gastronomy of the counties of Girona is one of the area's great attractions. Without a doubt, it is on a par with the beauty of the landscape and is an important factor in ensuring the success of business meetings.

The great culinary tradition of this region goes back a very long way and is based on its magnificent geography and climate, thanks to which excellent sea and mountain ingredients can be obtained: Mediterranean fish, top quality meat and artisan cured sausages, a wide variety of vegetables, mushrooms, olive oil and fine wines with the Empordà Denomination of Origin seal.

What is more, Girona's gastronomy today is synonymous with creativity. Just as Salvador Dalí surprised the world with his surrealist works, another genius, Ferran Adrià, has amazed everyone with his recipes. His famous restaurant, El Bulli, situated right on the Cap de Creus, was for many years one of the world's benchmarks for avant-garde cuisine. It has now been turned into a foundation that we will hear a lot about in the future and that will continue with the innovative work of its creator.

Clearly, many others have contributed to the leap in quality and creativity of Girona's cuisine, such as the prestigious El Celler de Can Roca, recently named the World's Best Restaurant by the prestigious British magazine Restaurant, and so many other restaurants that (whether or not they have been rewarded with Michelin stars) have achieved the reinvention of an entire country's cuisine.

Incentive activities

Thanks to the unique geographical features of the Costa Brava and the Girona Pyrenees, you can enjoy all sorts of activities (whether by land, sea or air), as a perfect complement to business meetings or incentive trips.

The experiences are unlimited. Guided Segway, horse, quad, bike, foot or snowshoe trails, adapted to the level of participants, are a great way to discover breathtaking landscapes. Kayaking or sailing trips, orienteering competitions on the beach or exclusive dinners in a hidden cove of the Costa Brava. Light aircraft flights offering spectacular views, hot air balloon flights over unique natural areas (followed by tastings of local produce) or parachute jumps for thrill-seekers.

The activities on offer also include options such as stays in spas, golf clinics, cooking classes with tastings of local produce or visits to wine cellars with the Empordà Denomination of Origin seal, markets, museums, botanical gardens, castles, monasteries and many other sites of great interest.

The possibilities are endless and we are always on hand to offer advice in designing an activity tailored to your objectives, whether to foster team spirit or to reward good work in an original and unforgettable way.
