Llagut Rowing Regatta

LLORET CONVENTION BUREAU

3 hours

Year-round

Min. 8 / Max. 52

Starting from €50 / pers.

The *llagut*, as it is called in Catalan, is a typical Mediterranean rowing boat. With seats for eight rowers plus a coxswain, it captures an exceptional spirit of teamwork and encourages a strong relationship between the crew. Learning how to row increases different abilities and helps people discover facets of their personality that they would perhaps be unaware of in the office.

While learning the different manoeuvres you will also be put in situations that occur in the working world: decision-making, overcoming difficulties, reacting quickly, leading groups, working as a team, and more. All of this will take place surrounded by the calm of the sea, the soothing sounds of the oars on the water, and the boat gliding forwards with every stroke.

During this activity you will discover the history and different parts of the *llagut*, and you will start to learn the basic principles of rowing techniques. We will visit coves that are difficult to access by land, and whenever you feel like it and the sea allows, you will be able to go for a swim. To finish off, if there are a minimum of two *llaguts* (16 people), you will be able to enjoy the unique experience of a regatta with your workmates.

Once back on land, we will toast the objectives achieved.

Includes:

- » Introduction to basic rowing techniques.
- » Regatta (for a group of at least 16 people).

The Grape Harvest Festival

LA VINYETA

2 hours

20 August -
10 October

Min. 15 / Max. 50

Starting from €45 / pers.

The fascinating world of wine has always been surrounded by an aura of magic. At La Vinyeta winery we'd like to offer you the chance to take part in the wine-making process through two activities: the Grape Harvest Festival and the activity "Wine Expert for a Day". After the long, painstaking months of lovingly tending the vines, it is time to pick the grapes at last. It is a joyful occasion. The grapes are ripe and there is no time to lose: we must get cracking with the harvest. We'll pick the grapes by hand, surrounded by the aromas given off by the vines. Then we will transport them carefully to the winery, where

we will tread them barefoot just as has been done since ancient times. All this work will be amply rewarded by a hearty breakfast in the vineyard. To finish off the process, we'll use a traditional wine press to obtain the must that the gods will then turn into delicious wine.

Includes:

- » Traditional grape harvest.
- » Tasting of must.
- » A guided tour of the winery.
- » A wine and oil tasting session.

This will give them the chance to try out their flair for combining different ingredients creatively.

Seafood Tasting Session on a Sailing Boat

TELA MARINERA

4 hours

Prawns, year-round;
sea urchins, October -
March

Min. 6 / Max. 36

Starting from €35 / pers.

Based in the port of Palamós, we specialise in classic boats and sharing local maritime traditions. We offer an active sailing experience: our passengers all take part in the on-board manoeuvres as they discover a new way of sailing along one of the most emblematic stretches of the Costa Brava. Aboard the boat *Rafael*, built in 1915, and the schooner *Jolie Biche*, we will sail to the Formigues Islands and anchor off Castell beach to taste traditionally prepared sea urchins: freshly caught, with bread, *botifarra* Catalan sausage and a good bottle of Empordà wine. If they are in season, we suggest trying some famous freshly-caught Palamós prawns. First, we'll take our

passengers on a visit to the fish market; then we'll set sail and, after anchoring, we'll have a swim (depending on the time of year). Then we'll grill some big prawns on a bed of salt (150 gr per person) and wash them down with a white Empordà wine. Tela Marinera offers a relaxed, unhurried sailing experience on classic, traditional boats, where the history of the men that once sailed in them complements a landscape and culture that never fail to inspire.

Includes:

- » A typical Catalan breakfast.
- » Tasting session of sea urchins and/or prawns.

Culture

When talking about the culture in the Costa Brava and the Girona Pyrenees, you are taken back to the dawn of civilization. By order of antiquity, you can discover megalithic monuments in the Albera and Gavarres massifs; prehistoric caves in Serinyà; Iberian, Greek and Roman villages along the coast, especially in Empúries; and Romanesque, Gothic, Baroque and Art Deco architecture on display throughout the area.

From the Middle Ages onwards the region has preserved such impressive locations as Sant Pere de Rodes and Ripoll, where the legacy of a thousand-year-old history can still be felt.

In recent years, artists –including the genius Salvador Dalí in particular– have interpreted our cultural and scenic environment in a very different way, capturing it in incomparable artistic creations. Altogether, over 55 museums and 550 monuments fill this region with culture and tradition.

The Dalinian Triangle offers visitors an almost metaphysical journey through a contrasting world of tormented nature and idyllic and unique locations.

Cuisine

Local cuisine is one of the biggest attractions in the province of Girona. It certainly matches the beauty of the landscape, and is an important factor for successful business meetings.

The region's proud culinary tradition has a rich history, and is based on a geography and climate that provide delicious ingredients from both the land and sea: Mediterranean fish, prime meat and sausages, a wide variety of vegetables, mushrooms, and olive oil. Not to mention the delicious D.O. Empordà wines.

Today, Girona's cuisine is also synonymous with creativity. In the same way that Salvador Dalí surprised the world with his surrealist art,

another genius, Ferran Adrià, has astonished the public with his recipes at the restaurant El Bulli.

Girona's cuisine is currently among the best in the world, and includes such top chefs as the Roca brothers, international pioneers in their work at the restaurant El Celler de Can Roca, which boasts three Michelin stars.

In the province of Girona people have always cooked well, thanks to tradition and the best raw ingredients.

Nature

The unique geographical features of the Costa Brava and the Girona Pyrenees allow visitors to choose from a range of activities on land, at sea and even in the air, as a complement to any business meeting or incentive trip.

There are unlimited experiences on offer. Such activities as guided tours by Segway, horse riding, quad biking, cycling, walking and snowshoeing are all adapted to the abilities of the participants, and help you make the most of the beautiful surroundings. Kayaking or sailing on a yacht, orienteering on the beach, and exclusive meals in secluded coves along the Costa Brava. Light aircraft flights with incredible views, hot air balloon flights over

unique landscapes while tasting local products, and skydiving for more adventurous visitors.

The activities on offer also include options such as stays at spas, playing golf, cookery lessons to taste local products, visits to wineries selling D.O. Empordà wine, trips to markets, museums, botanical gardens, castles, monasteries, and numerous other attractions. The possibilities are endless, and we propose designing an activity tailored to your goals, encouraging team building or rewarding hard work in an original and unforgettable way.

Over 30% of the total province is a protected natural area

Golf

The Costa Brava offers the ideal setting for golf lovers who want to play their favourite sport.

The golf options available include thirteen golf courses and eleven pitch and putt courses throughout the Costa Brava and Girona Pyrenees.

There are five golf courses at three golf clubs –the PGA Catalunya Resort, Empordà Golf Resort and Golf Platja de Pals– that are among the top 50 courses in Europe, according to the official British ranking of 'Top 100 Golf Courses'.

The icing on the cake is the PGA Catalunya Resort, which received an award for best golf resort in Europe in 2016.

*Thirteen golf courses,
thirteen routes through
an incomparable
landscape.*
